HOW DO WE COME TO SOLAR PROJECT

为什么会开启太阳能项目

In the process of implementation of the distribution system loss reduction project we encountered the reality of the challenge Ghanaians are facing with power shortage in the country.

The Management of BXC upon careful thought decided to look at ways whereby we can make further contribution to the Power sector in Ghana.

在实现配电系统降损项目的过程中，我们遇到挑战，发现加纳人民正面临着该国电力短缺的现实。

BXC的经管理层慎重考虑，决定寻求对加纳电力系统作出进一步的贡献。

BXC has been working to develop a renewable energy facility, 20 MW Solar PV plant at Onyandze near Winneba in the Gomoa East district of the Central Region.

BXC一直致力于开发可再生能源设施，在Onyandze靠近温尼巴中部地区的Gomoa东区，选址建立20兆瓦太阳能光伏电站。

- Physical construction has been completed, we are currently doing commissioning tests to enable BXC obtain the operational permit from the Energy Commission.
- It is our belief that the enabling environment has been created to allow private businesses to invest in the Renewable Energy sector.
- 实物建设已完成，我们现在正在做试运行测试，以使BXC获得能源委员会的经营许可。我们相信，有利环境已经建立，以允许私营企业投资于可再生能源领域。
